Summary

- Full-stack developer skilled in JavaScript, PHP, MySQL, and the MERN stack, with hands-on experience in building scalable, tested web applications and APIs.
- Proficient in debugging, automation (Postman, Jenkins), and UI/UX design using tools like Figma, with a focus on clean, maintainable code.

Skills

Programming Languages - Java, Python, C, C++, JavaScript, PHP |

Web Development - React, Node.js, Express.js, Redux, TailwindCSS, HTML, CSS, TypeScript, REST APIs |

Testing & Automation – Postman, Jenkins, JUnit, Git, API testing, Debugging, Test case design |

Database & Tools – MongoDB, MySQL, DynamoDB, Appwrite, GitHub, Netlify, Render, Figma

Education

- B.E. in I.T. | D.Y.Patil College of Engineering, Akurdi. CGPA: 7.54 | 2022*
- XII (Science) | Sharad Science and Commerce College, Yadrav. 87% | 2021-22
- X(SSC) | New English School, Shedshal 93.2% | 2019-20

Projects

SUMZ - An AI Article Summarizer 🔗

- Built a web app that extracts and summarizes article content from URLs using **React**, **Redux**, and **RapidAPI**. Handled API validation, loading states, and error messaging using Postman for robust testing.

GenAI - An Image Generator 🔗

- Developed a full-stack image generation and sharing platform using **React**, **Node.js**, **Express**, and the **Stability API**. Implemented backend rate limiting, prompt validation, and secure image uploads.

3D Portfolio Website 🔗

- Created an interactive 3D portfolio using **Three.js**, **React**, and **TypeScript** to showcase projects. Focused on responsive design, performance optimization, and dynamic animations for enhanced UX.

Position of Responsibility

Technical Event Co-ordinator | ITESA, DYPCOE

- Organized events focused on code debugging, logic building, and real-time assistance using ChatGPT.
- Coordinated performances and exhibitions with smooth logistics.

Achievements

Hackathons & Technical Challenges

- Participated in **Adobe Hackathon**, **Flipkart Grid 3.0**, **Juspay Hiring Challenge**, **TVS Credit EPIC** and built practical solutions for real-world problems.

Problem Solving 🔗

- Practiced debugging and logic building through Java, C++, and SQL problems on **LeetCode** and **GFG**.
- Automated API testing workflows using Postman collections and basic Jenkins pipelines.

Certificates

- Udemy - The Web Developer Bootcamp by Colt Steele 🔗
- AWS Academy Graduate - AWS Academy Cloud Foundations 🔗
- Eduskills - Android Developer Internship by GOOGLE
- HackerRank - Java(Basic) 🔗
